## Dave Cunningham Shot In Hunting Accident Sunday

Councilman Dave W. Cunningham is reported to still be in a serious condition at Good Samaritan Hospital, West Palm Beach, where he is being treated for gun-shot wounds received in a hunting accident southwest of Clewiston between 10 and 11 a.m. Sunday morning.

Mr. Cunningham and Mayor Lewis Friend were hunting turkey and had become separated when the accident occurred. Mayor Friend saw the leaves moving in a tree about 50 yards away and caught glimpses of what appeared to be turkey feathers. He whistled the prearranged signal between the two men and receiving no answer, fired his 16-gauge shotgun into the tree hitting Mr. Cunningham in the right arm and side.

The wounded man, who was wearing a polka dot shirt the same color as turkey feathers, was knocked unconscious and lodged in the tree. ## News Notes From State Capital

**TALLAHASSEE** — Anyone expecting a bill to be paid by the state may have to wait until January or February. Comptroller C. M. Gay called a halt on payment for anything but salaries, welfare, schools and similar essential services, until the seasonal low point in state collections is past. The 1951 legislature moved the purchase of automobile tags up from December 1 to January 5, and this means that at least 12 million of early tag money won't come into the state treasury until the first of March. Comptroller Gay indicated, however, that the state will be able to pay out as soon as these big chunks of tax money start coming in.

**TALLAHASSEE** — Coca Cola and coffee cost the average Floridian more than does education for the young. State School Superintendent Tom Bailey is sending out word to parent-teacher associations that the cost of common school education is less than 10 cents per day per person. The annual cost of educating one pupil has risen only from \$170.45 to \$174 since 1948-49, in spite of the ballooning of all other costs, he added.

**TALLAHASSEE** — As various agencies moved to test the new state election laws, Secretary of State R. A. Gray announced a series of state meetings starting in Pensacola December 6 to explain the new election code to many whose letters and calls indicate misunderstanding. Gray said he will conduct other similar meetings throughout the state in the next few weeks, similar to one he held with weekly newspaper publishers in Lakeland November 24. Many provisions of the new laws, especially those dealing with campaigning spending are not understood by the public, the secretary of state said he has found, and it is his purpose to help dispel the confusion which followed passage of the 1951 election code and the accompanying campaign expenditure law.

**TALLAHASSEE** — Whether electric and gas utility companies can charge rates based on systematic wide costs or only community-

wide costs is a knotty question now under study by the Florida Railroad and Public Utilities Commission. Chairman Richard A. Mack announced that hearings before the Florida Power Corporation's application for higher rates in Pinellas county will be resumed after the commission rules on the point of how such rates may be fixed. General Counsel Lewis W. Petettway of the commission raised the point after two days of testimony that the company improperly was trying to hang its rates for Pinellas county on its costs spread over 30 other counties all well.

**TALLAHASSEE** — A proposed 10-year lease by the state beverage department was held not binding past the 1953 legislature in an opinion by Attorney General Ervin. He ruled that such a lease would be in effect an attempt to bind subsequent legislatures in a matter where each legislature could make its own decisions. The beverage department which collects more than \$20,000,000 a year in taxes from liquor and cigarettes, is cramped for space and has taken the top floor of a proposed office building for which the ground on the edge of the Capitol Center is now being cleared.

**TALLAHASSEE** — Attorney General Richard W. Ervin this week gave his opinion on the following general subjects:

**CAMPAIGN** — Candidate may use proceeds from motion picture project for campaigning without reporting such as contributions.

**JUDGE** — Small claims courts must be held at the county seat.

**VACATION** — County cannot pay former county agent make-up vacation salary.

**YOUTH** — Supervisor of registration may employ clerk under 21 years old.

**STOP** — Motorist who disobeys traffic light is subject to prosecution.

**EVIDENCE** — Property held as evidence in criminal cases may not be replevined.

**ELECTION** — Calendar printed on back of campaign card is legal.

**VOTING** — Where county has adopted voting machines, they

must be used in all municipal elections as well.

**TALLAHASSEE** — The next meeting of the Florida Board of Parks and Historic Memorials will be held in Everglades December 10 and 11. The Collier county seat town is the home of Board Member Miles Collier, whose father founded and helped develop the county. Chairman Eileen H. Butts said the meeting will consider a recent offer of the owners of Kill Learn Gardens, near Tallahassee, to give the gardens to the state for a park. The board also will consider whether to start a long range financing program to develop greater public use for state parks, most of which have not been improved since the days of the CCC and the WPA.

### Two In-Hospital From Car Wreck

Mrs. H. T. Williams and Miss Ann Thompson have been patients at a West Palm Beach hospital this week recuperating from injuries received in a car accident near Twenty-mile Bend Sunday night.

The accident occurred when the Williams car, driven by Miss Delores Williams, went out of control and turned over several times on the side of the road. A few minutes after the accident occurred another car is reported to have hit the wrecked car, aggravating Miss Thompson's injuries. Miss Williams was shaken up, but not injured.

### Girl Scouts To Conduct Investiture

Pahokee Girl Scout Troop Two will conduct an investiture at the First Methodist Church this Friday night at 7:30 o'clock for scouts who recently passed their tests for tenderfoot rank.

Mrs. John Elton will be in charge of the ceremony. She will be assisted by Mrs. Ruth Handley, troop leader. The program, starting with the flag ceremony, will include an outline of scout laws and an explanation of what makes a good girl scout.

Tenderfoot pins will be awarded by Mrs. Handley to Jean Brown, Joan Darden, Donna Davis, Cindy Friend, Betty Gail Howard, Shirley Kincaid, Patsy Mims, Estelle Odum, Glenda Russom, Janette Spooner, Nancy Thomas, Geraldine Upthegrove, Suzanne Young and Jane Watson.

Parents and friends are invited to attend.

### Lucy Jones Circle Has Regular Meet

The Lucy Jones Circle, First Baptist WMS, met at the home of Mrs. C. A. Batchelor Monday, with Mrs. R. O. Lampi and Mrs. W. H. Rogers, co-hostesses.

Mrs. Vera Summerlin gave a talk on "Why Do We Have a Christmas Tree Story." Mrs. Lampi reported on the mission study of "Pilgrimage to Spanish

America."

Following the brief business session gifts were exchanged and the group sang Christmas carols. Mrs. Laverne Batchelor was a visitor.

Planners for the recent Trailer-coach Exposition in St. Petersburg said delegates to the national convention spent at least \$500,000 during their stay in the city.

## Telephone Service is Growing, too

... and the price is up far less  
than most things you buy!

**LONG DISTANCE CALLS**  
go through faster when you give  
the operator the out-of-town  
telephone number.

RAPID GROWTH—that's one thing this young fellow has had in common with telephone service since his babyhood.

ACTUALLY, in just five years the number of local telephones Floridians can call has more than doubled. And this year's increase in Florida telephones is expected to reach about 51,000.

BEST OF ALL, this bigger, better "package" of service has gone up on the average less than a fourth as much as prices in general... and less than our cost of providing the service.

ALWAYS one of your biggest bargains, telephone service is today an even better buy than it was ten years ago, and a smaller part of your family budget.

## Christian Science Group Of Canal Point

Those attending Christian Science services next Sunday will hear that God is the cause of all that really exists, and that all He creates is good. The Lesson-Sermon is entitled: "GOD THE ONLY CAUSE AND CREATOR".

The Golden Text states: "In the beginning God created the heaven and the earth" (Gen. 1: 1).

Passages from the Bible (King James Version) will include the following from Paul's Epistle to the Romans (8: 16): "The Spirit itself beareth witness with our spirit, that we are the children of God."

Correlative citations from "Sci-

ence and Health with Key to the Scriptures" by Mary Baker Eddy include: "The foundation of moral discord is a false sense of man's origin. To begin rightly is to end rightly. Every concept which seems to begin with the brain begins falsely. Divine Mind is the only cause or Principle of existence" (p. 262).

**WE ARE  
IN STEP  
WITH  
THE TIMES**

It is no small task to record each week the happenings of any community. We here at The Everglades News are happy that our assignments bring us face to face with hundreds of folks of our community each week. We strive to KEEP IN STEP with what is going on here in this vast agricultural area on the eastern shore of Lake Okeechobee. It gives us a great deal of pleasure to record for you weekly (and for posterity) the happenings of a growing section of Florida. Future generations will thrill when they read of the pioneering efforts of you and your loved ones in establishing a great agricultural empire.

KEEPING IN STEP with the times means that we must be on our toes day in and day out—making an earnest effort to record those things which are interesting, historical, progressive and at times amusing. All such happenings go toward making up a worthwhile and happy community where living is just a mite better than in thousands of other places in America—where your neighbor's smile is just a mite friendlier than is witnessed elsewhere in this great land of ours.

Each week for more than a quarter of a century this newspaper has reached its readers each Friday morning with full and complete news coverage of the Lake Okeechobee Farm Area. Bringing out The Everglades News each week—on schedule—has grown to be a habit with those of us who produce it. Not once during the 25 years of its existence has this newspaper missed a publication day. Through floods, hurricanes and other adverse antics of nature we have managed to make the deadline. It has been no small accomplishment.

## Cinematic Chatter

By Malcolm Millar

In going through my Hollywood press material I notice that my dear friend Francis X. Bushman is to play a corrupt Indian agent in a forthcoming picture with the title "Apache Country," with Gene Autry as the star. Dear Francis, one of the finest fellows ever hoped to know. One of the immortal stars of the silent days, who enjoyed his merited praise on Broadway and on many stages in leading cities of America. Francis made and spent six millions of dollars in his hey day. Nothing was too good for his friends and life to him was just a great big bowl of cherries, and every one of them ripe and tasty. Francis was the great lover of his time. His appearance on the screen was a signal for all the romantically inclined ladies, and theatre men enjoyed wonderful box office response whenever his picture came to town. He wed and married a sizable number of America's most gorgeous ladies of the stage and screen. But the lady of his choice seems to have been Beverly Baines, with whom he toured the country in dramatic productions. Francis is well up in his 60's now, but he is still a handsome man from any standpoint. White-haired with the character lines of years of study and service to the public, Francis has mellowed with age and loves to recall the hey day of his career with humorous stories. Never, never does he regret the squandering of fortunes, the gay parties the mistakes of his life. He looks on all of his life with pleasure. Yes, my friend Francis is a great fellow and I'm glad to see him back in Hollywood, working. See you at the movies—Mal.

## Medical School In Offing For Florida

TALLAHASSEE—The University of Florida had \$100,000 released to it for medical school planning but it can't spend more than \$20,000 of it at present.

The full appropriation made by the legislature to plan a medical school was released so federal matching funds could be sought and commitments made with arch-

itects and other. However, the cabinet took a look at the lean condition of the state treasury and told university officials they may spend only \$20,000 of the amount during the first three months of 1952. Representatives of the university and the State Board of Control said they did not think any major expenditures would be needed for several months yet.

The legislature has designated the University of Florida as the site for any state supported medical school which may be established. The \$100,000 recently released is for planning only, as there have been no appropriations for construction of a school.
